Sir:

This Supplemental Amendment is being filed in order to add  
to the referenced application claims directed to a method of  
inducing an immune response against herpesvirus.

Please amend the application as follows:

In the Claims:

Please add the following claims:

- 37. A method of inducing an immune response against  
herpesvirus in a mammal comprising administering to  
said mammal a vaccine comprising a mutated herpesvirus,  
said herpesvirus having a mutation in one or more genes  
encoding a protein essential for viral replication to  
render the herpesvirus replication defective.
